[LinkedIn](#)

A motivated and detail-oriented Computer Science and Engineering student with a strong foundation in Java, SQL, Basics of C, and web technologies. Completed an internship and seeking an entry-level software development role to apply problem-solving skills, enhance technical expertise, and contribute to innovative projects in software development and technology solutions.

Skills

- Programming Languages: Java, Basics of C.
 - Frontend: HTML, CSS, JavaScript
 - Database: SQL.
 - Developer tools: VS Code, GitHub, Eclipse IDE
 - Soft Skill: Problem-Solving, Team Collaboration, Communication.
 - Frameworks: React.js
-

Projects

- **Project on Automatic Identification of Helmetless Motorcyclist** [View on GitHub](#)
Developed an AI-powered system using OpenCV, YOLO, and OCR to detect helmetless riders from traffic surveillance videos. Implemented license plate recognition for automated violation tracking. Achieved high accuracy in real-time detection under varied lighting and traffic conditions.
 - **Project on Kreedra-Prerana-Scout** [View on GitHub](#)
Built an Android application using Android Studio for sports talent scouting and player performance management. Implemented database integration, user-friendly UI, and player data tracking features for efficient sports analytics and management.
 - **Project on Netflix-Style Movie Application** [View on GitHub](#)
Developed a Netflix-inspired web application with an interactive user interface for browsing movies and TV shows. Implemented responsive design and dynamic content features using modern web technologies to enhance user experience and performance.
 - **Project on Voice Based Virtual Assistant for Windows** [View on GitHub](#)
Developed a Voice-Based Virtual Assistant for Windows using Python to automate tasks such as web browsing, application control, and information retrieval. Integrated speech recognition and text-to-speech modules to enable hands-free interaction, improving user convenience and efficiency.
-

Internship Experience

- **Java Full Stack Intern – KodNest (Feb 2026 – May 2026)** [View Certificate](#)
Completed a Java Full Stack internship focused on developing web applications using Java and full-stack technologies. Enhanced skills in frontend, backend, database integration, and software development practices through hands-on training and projects.
-

Certifications

- **LinkedIn:** Data Analysis with Python and Pandas (Feb 2025 – May 2025)
 - **Infosys Spring Borad:** Programming fundamentals using python part - 1 (Nov 2024 – Jan2025)
 - **IVIS LAB:** Domain Specific Training in JAVA (2024-2025)
-

Education

- ATME College Of Engineering, Mysuru

University: Visvesvaraya Technological University | 2026

- Brigade Pre-University College, Hassan.

Board: Department of Pre-University Education | 2022

- Hassan Public School, Hassan.

Board: Central Board of Secondary Education | 2020

Languages

Kannada

Tulu
